FIRE TRUCK LICENSE PLATE APPLICATION NRS 482.3795

Privately owned fire trucks may be issued special fire truck license plates and registration. Fire trucks registered under this provision may only be operated for musters, exhibition, parades or similar activities and may not be used for general transportation. If a fire truck is used for general transportation, regular annual registration is required.

"Fire Truck" means a motor vehicle designed and manufactured for use in suppressing fires and which is equipped with fire suppression apparatus.

All gasoline powered vehicles and light duty diesel vehicles 1968 and newer, based in Clark and Washoe Counties, are required to have an emission inspection prior to registration.

Liability insurance must be in effect when fire trucks are operated on the highways of this state. Proof of liability insurance must be carried in the vehicle during operation.

The initial fee for fire truck license plates is \$15.00, plus a \$1.00 prison industry fee. There is an annual renewal fee of \$5.00. These fees are in lieu of the annual registration fees and governmental services tax.

Application must be made in person at a DMV full service office, or where applicable, County Assessor office.

INSTRUCTIONS

1. Have safety inspection performed on truck
2. Complete this application in full
3. Remit \$16.00 fee
4. Submit application, safety inspection emission certificate, if required, and fee to a DMV full service office, or where applicable, County Assessor office.

Please Print or Type

Applicant's Name _____
First Middle Last

Address _____
City State Zip Code
